**Subject:** Columbia Falls - Concerned Citizen

All:

Mike Trombetta had a call/voice-mail from Mary J. Barret (406-257-8558). She said that from 1990-1991 she was a nurse working for an internal medicine doctor. She said that they noted some odd cancers, and that there appeared to be a pattern of younger people in Columbia Falls coming in with weird cancers. EPA completed a site assessment (which included collecting environmental samples) and is considering proposing Columbia Falls Aluminum Plant to the federal superfund list (National Priorities List). I'm not sure if there have been any previous evaluations/assessments that looked at potential health concerns or cancer clusters in the Columbia Falls area. Dan, would you be willing to take the lead and call her back to determine if there is any additional information she can provide that would assist ATSDR in responding to the concern? Please let me know if there is anything I can do to help. Thank you very much!

Denise Martin
